Green Rating Assessment Score

Attribute	Assessment Criteria	Evidence Supplied	Score	Total Possible
1. Product Description	Product content – physical constituents	Detailed description	5	5
	CAS Number	CAS Number	5	5
	International Product Code	HS Code	5	5
	Material Safety Data Sheet or equivalent	MSDS document	5	5
Subtotal			20	20
2. Health & Safety	Risk to human health - staff	Report and risk rating using risk assessment matrix	2	3
	Risk to human health - customers and public	Report and risk rating using risk assessment matrix	2	3
	Risk to human health - from end-of-life	Report and risk rating using risk assessment matrix	2	3
	Risk to environmental health - general	Report and risk rating using risk assessment matrix	2	3
	Risk to environmental health - emissions	Report and risk rating using risk assessment matrix	2	3
	Other health and safety issues, if any	Report and risk rating using risk assessment matrix	2	3
	Accident Record	Record of any accidents or near misses caused by product	3	3
Subtotal			15	21
3. Sustainability	Product Origin	Origin stated by content	3	3
	Product Labelling	Meets required industry and government standards	3	3
	Resource Use Efficiency	Materials, water, other resources	2	3
	Chemical Use	Statement of chemicals used (refer MSDS)	3	3
	Energy Use	kWh in manufacture, or other record	0	3
	Environmental Nuisance	Noise, dust, smell and control of any nuisances identified	2	3
	Contaminant discharges and control	Nature of contaminant and its control	2	3
	End-of-life waste management	Reduce, re-use, recycle, circular economy	3	3
Legal Compliance	Not on prohibited chemical list. Consents held if required	3	3	
Subtotal			21	27
